Bailey's Moving & Storage Celebrates 65 Years

(Englewood – January 5) – Bailey's Moving & Storage, an agent for one of the world's largest moving companies, Allied Van Lines, has reached a milestone of 65 years in operation.

Beginning with residential garage in Provo, Utah and a pickup truck, local man, Cliff Bailey began Bailey's Moving & Storage in 1952. After years of successful local moves, Bailey's expanded their reach to global moving operations and logistics by joining the Allied Van Lines network in the late 1950s.

"It's a great accomplishment and honor to reach a milestone in our business," said Kevin Beckstead, president of Bailey's Moving & Storage. "Our business was founded on quality and service, and continues to be the reason why we've grown from a small local business to a multi-point agent. We care about the customer and recognize that moving is an important milestone in their life, so we treat each move individually and use our expertise to ensure the highest quality move experience possible. We thank and appreciate every customer and employee past, present, and future."

"Bailey's Moving & Storage is one of the key agents for the Allied network," said Lesli Bertoli, vice president and general manager of Allied Van Lines. "They consistently deliver high satisfaction and safety scores, and ensure they're operating with the latest technology to service customers. There is no question Bailey's leads with excellence in various categories and can deliver no matter the size or location of a move."

Although Bailey's Moving & Storage has grown to six locations and over 350,000 square feet of warehouse space, they continue to operate where it all began in the Provo/Orem area.

“We are grateful to the Provo/Orem area for supporting our small business from the first move we did in the 1950s,” said Kevin Beckstead. “We are truly honored to have reached this milestone and not only thank the communities that have supported our business, but also the drivers, crew members, operations staff and all Bailey’s employees.”
